

Jake Nathan

@JakeNathanAI

ChatGPT is a FREE programmer.

But you're not using it like that.

It's coding my website as I write this.

And I don't know how to code.

How to make a free website with ChatGPT in 4 Minutes 

Jake Nathan

@JakeNathanAI

Step 1 - The Problem:

I've always wanted to make my own website.

Not with a website builder like Squarespace or Wix.

But with actual code.

Jake Nathan

@JakeNathanAI

There's one big problem:

I don't know how to code.

So my dream of making a website has been on pause for while.

Jake Nathan

@JakeNathanAI

Step 2 - The Solution:

But then ChatGPT comes along.

People say it can do everything.

I hear it's pretty dang good at coding.

Jake Nathan

@JakeNathanAI

Step 3 - The Prompt

I decide to give it a shot:

“Hey ChatGPT, I want you to make me personal website that looks good on phones.”

Jake Nathan

@JakeNathanAI

Then I get bold and ask for specific things:

“At the top, I want a picture of me cropped in a circle.

Below, I want large header text that says Hi, I'm Jake.

Below, I want a button to subscribe to my newsletter.

etc.

Jake Nathan

@JakeNathanAI

Step 4 - The Ask

Finally, I ask it to give me the code for the website:

“ChatGPT - Please give me all the code needed to make this website.”

Jake Nathan

@JakeNathanAI

I can't believe my eyes.

It starts spitting out code.

Like it's out of a movie.

Before I know it, I have all the
code I need.

Sure, here's all the code you need for your website:

php

 Copy code

```
<!DOCTYPE html>
<html>
  <head>
    <title>My Personal Website</title>
    <link rel="stylesheet" href="https://s
  </head>
  <body>
    <div class="container">
      <div class="row">
        <div class="col-12 text-center">
          Hi, I'm Jake.</
          <h3 class="mb-4">I'm a content c
          <p class="lead mb-5">I have an A
          <button type="button" class="btr
        </div>
```

Jake Nathan

@JakeNathanAI

Step 5 - Hosting

Now I have to find a way to host my website.

I google “host HTML page”

And I find a website to upload my code.

Jake Nathan

@JakeNathanAI

Step 6 - The Website

I click on the link to my
site and...

I'M SHOCKED.

Jake Nathan

@JakeNathanAI

With only 2 tweaks,

This is what the code gave me:

Hi, I'm Jake.

I'm a content creator fascinated by AI.

I have an AI newsletter with over 200 subscribers, and a YouTube channel with over 35K subscribers.

[Subscribe to My Newsletter](#)

Jake Nathan

@JakeNathanAI

Step 7 - The Future

If I can make a website in 5 minutes,

ANYONE can too.

Soon enough, with a few prompts,

you'll be able to create:

mobile apps

TV shows

movies

books

AI is crazy. Right?

Every Thursday, I'll send you an email with real examples of how to use AI in your job.

300+ people read it every week. Join with the link below in my comments:
